

## Quick guide for pairing E7/1000

### Step 1

Place the earbuds into the charging case and close the lid. Wait for a few seconds.

### Step 2

Remove the earbuds from the charging case; they will power on automatically and enter pairing mode. **Make sure the earbuds are placed close to each other during first time pairing to a new device.** Left earbud will prompt "connected-left channel", right earbud will prompt "connected-right channel."

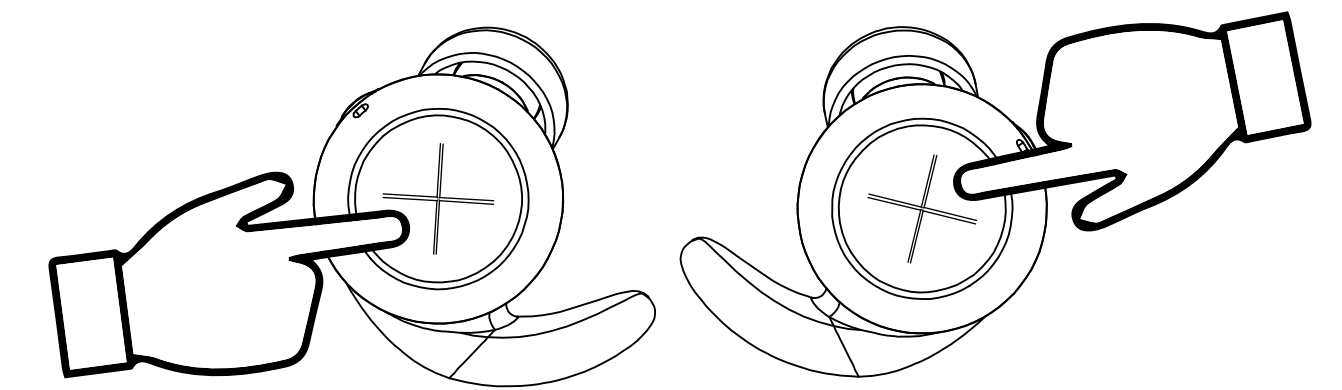

### Step 3

Open the device's Bluetooth configurations and select "E7/1000-R"

### Step 4

When the device is successfully paired right earphone will prompt "Connected"

## If you have troubles connecting

1. Remove E7/1000 from your Bluetooth list on your device
2. Do the reset described in the user guide: In OFFMODE state, press MFB button on both headset (L) and headset (R) for 10 seconds (OFF MODE→ON MODE(2 seconds)→ Delete pairing records (10seconds), until hearing the Beep voice for 3 times, and the purple light flashes twice at the same time.
3. Then do the pairing process again as described in step 1-3
4. Only **KYGO E7/1000- R** should appear on your device now if the left and right earbud are connected successfully. KYGO E7/1000- L also shows on the pairing list repeat this instruction
