

Xelerate user guide

Wireless Sports Earphones

X³.KYGO

Getting Started

Congratulations! Thank you for choosing Kygo Xelerate™ Bluetooth Earphones. Before using them, you should read this manual to familiarise yourself with the functions of the product.

Precautions

1. Please follow the instructions given in this manual carefully to ensure your safety. Before using Kygo Xelerate™ earphones, we would strongly encourage you to read through this user manual.
2. Pay particular attention to any edges, uneven surfaces, metal parts, accessories and packaging to avoid any possibility of injury.
3. Do not dismantle, repair or modify this product as this could lead to fire, electric shocks or other product damage, which are not covered under warranty.
4. Do not use any solvents or volatile liquids to clean Kygo Xelerate™ earphones.
5. Do not use your Kygo Xelerate™ earphones in hazardous situations.

Precautions

Kygo Life As adheres to the certification requirements for various regions around the world. For a full list of certifications please visit: www.xbykygo.com

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the distance between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Precautions

Changes or modifications not expressly approved by Kygo Life As could void the user's authority to operate this equipment.

Kygo Life As, Gjerdrumsvei 10 A, declare under their sole responsibility that the product described in this user guide complies with technical standards EN300328, EN301489, EN55032, EN55035, EN50332.

The product is only guaranteed to comply with EN50332 in generic mode with immersion of with the volume limiter on. Depending on the hearing of the user, some combinations of hearing corrections and immersion setting may exceed EN50332 limits.

To prevent possible hearing damage, do not listen at high levels for long periods.

This device may be operated in all member states of the EU. Declaration for EU compliance: Operation Frequency Band/Max. RF power transmitted: 2402-2480MHz, <3.24dBm.

Precautions

Hereby, Kygo Life As. declares that the radio equipment type 'Xelerate' is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
www.xbykygo.com

Focus on your safety and that of others if you use the headphones while engaging in any activity requiring your attention. You may remove the headphones or adjust your volume to ensure you can hear surrounding sounds, including alarms and warning signals.

Do not use the headphones if they emit any loud or unusual noise. If this happens, take the headphones off and contact Kygo Life As customer service.

Do not submerge or expose the headphones to water, or wear while participating in watersports, e.g., swimming, surfing etc.

Precautions

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.
